**NATIONAL PARKS**

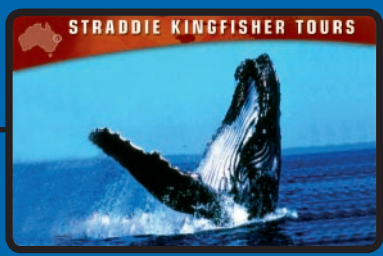

Queensland Parks and Wildlife Service protects large areas of world-heritage subtropical rainforest, important coastal communities and other habitats in Southern Queensland, which is one of the country's highest areas of biodiversity. Much wildlife can be seen by the patient observer along the wonderful systems of walking trails. QPWS also operate Walkabout Creek, Fleay's Wildlife Park and Daisy Hill Koala Centre, which collectively offer great opportunities for visitors to come face to face with and learn about Queensland's wildlife, as well as conducting conservation-related research and breeding programs for rare and threatened species and educational programs for schools and families.
